About This Content

The Unreal Engine "cooks" the assets for the built game. These files cannot be loaded in the UE4 editor anymore. Therefore you cannot mod the installed game directly. Instead you can download our uncooked project files here. With this DLC you can make your own levels and skins or change the existing game mechanics to your liking!

Title: Breaking Wheel Modding Files
Genre: Action, Casual, Indie
Developer:
Insane Mind Games
Release Date: 12 Dec, 2016

 a09c17d780

Minimum:

Requires a 64-bit processor and operating system

OS: Windows 7/8/10 64-bit

Processor: Quad-core Intel or AMD, 2.5 GHz or faster

Memory: 8 GB RAM

Graphics: NVIDIA GeForce 470 GTX or AMD Radeon 6870 HD series card or higher

DirectX: Version 10

**Storage:** 34 GB available space

Rule 126: Use a fixed point to help measure a two-second gap

126 **Stopping Distances.** Drive at a speed that will allow you to stop well within the distance you can see to be clear. You should

- leave enough space between you and the vehicle in front so that you can pull up safely if it suddenly slows down or stops. The safe rule is never to get closer than the overall stopping distance (see Typical Stopping Distances below)
- allow at least a two-second gap between you and the vehicle in front on roads carrying faster-moving traffic and in tunnels where visibility is reduced. The gap should be at least doubled on wet roads and increased still further on icy roads
- remember, large vehicles and motorcycles need a greater distance to stop. If driving a large vehicle in a tunnel, you should allow a four-second gap between you and the vehicle in front

If you have to stop in a tunnel, leave at least a 5-metre gap between you and the vehicle in front.

Typical stopping distances

Speed	Thinking Distance	Braking Distance	Total
20 mph (32 km/h)	6m	6m	= 12 metres (40 feet) or three car lengths
30 mph (48 km/h)	9 m	14 m	= 23 metres (75 feet) or six car lengths
40 mph (64 km/h)	12 m	24 m	= 36 metres (118 feet) or nine car lengths
50 mph (80 km/h)	15 m	38 m	= 53 metres (175 feet) or thirteen car lengths
60 mph (96 km/h)	18 m	55 m	= 73 metres (240 feet) or eighteen car lengths
70 mph (112 km/h)	21 m	75 m	= 96 metres (315 feet) or twenty-four car lengths

Thinking Distance **Braking Distance**

Average car length = 4 metres (13 feet)
