A dialog box is opened > select the Language . Enable or disable the "Select a Language" checkbox on the "Application Language Settings" screen. English (US) [Show] French (France) [Hide] Note: If you are using a new computer, or if you have ever had an error occur in the game, you may need to change the language to English (US) before you can access the application language settings. If you want to set the application language to English (US), follow these instructions: From the main game screen, press the X button to load the Save/Load screen. When the save/load screen appears, press the R button to choose a file to load. When the file is loaded, the Save/Load screen will disappear. When you choose the file to load, you will be taken back to the game. Press the X button to go back to the main screen. Press the R button to choose a file to save. When the file is saved, the main screen will disappear. If you are not using the Save/Load screen, then you can use the main menu to access the application language settings: Select the Batman Arkham Asylum icon. Press the L button to open the main menu. Select the "Application Language Settings" option. You can also access the application language settings from any of the game screens by pressing the R button. When the "Select a Language" is unchecked, English is the primary language. When the "Select a Language" is checked, French is the primary language. Changing the application language does not affect the language used in other game features, such as the In-Game Japanese, In-Game English and Misc. language options, or any of the subtitles in the game. Click the Question mark (?) icon on the lower left side of the screen to open the in-game help screen. The in-game help screen provides a list of help topics and their contents. The help screen is available when the game is running and will not be displayed when the game is paused or the game is not running. If you want to access the game help screen in the pause menu, press the L button to open the main menu 82157476af
